

COSO Internal Control Certificate Program

Vasilis Monogyios

Course Objectives

The COSO Internal Control Integrated Framework is the most widely used framework for designing, implementing, and evaluating an Internal Control System.

In particular, for public companies with shares or other securities listed on a regulated market

The seminar's objectives are:

1. Training on the COSO Internal Control Integrated Framework: Acquire all the tools and knowledge necessary to design, implement, apply, and evaluate an Internal Control System in a business or organization.
2. Preparation for obtaining the "COSO Internal Control Certificate" from the IIA (Institute of Internal Auditors).

Who should attend?

The seminar is addressed to:

- Members of boards of directors and senior executives
- Staff from support and strategic departments, such as Regulatory Compliance, Risk Management, Internal Controls, and ISO
- Internal auditors
- Professionals from consulting firms involved in process organization, both in the private and public sectors

Course outline

The certification process consists of three parts:
